Letter of Recommendation
To Whom It May Concern

It gives me a great pleasure as HOD and Instructor of Computer Science and Software Engineering to write this recommendation letter for **Mr. MOGES SHITAW**. I have known him, for the last four year as a student of **BSc in Computer Science** at **Mizan Tepi University**.

He gave excellent presentation in various course works held in the class, which in themselves were very educational and competitive to the core. He has acquired necessary theoretical and laboratory/practical skills. It is because of sincerity and obedience, his logical thinking and perseverance: he enjoyed a good reputation among our staff members and among his classmates.

Mr. MOGES SHITAW is an amiable and well-mannered student who works harmoniously in a team. He is helpful and maintains good relations with the Instructors and his friends. He is confident and can communicate effectively. His command over English language is excellent. His presentation of thoughts is lucid.

I have found him to be a student of excellent aptitude, impressed by his social discipline, soft spoken nature and confident oratory ability, I strongly recommend him, and I am sure that competitive environment will bring out the best in him and help him to live up to your expectations.

With best regards!
